

MESSY WAREHOUSE DQA REPORT

FINDINGS

Consistency

- ❖ The following columns have 'NaN' as its value: **Quantity**, **Price**, and **Last_Restocked**.
- ❖ In the **Quantity** column, it has a value 'Two Hundred' instead of an integer, 200.

Uniqueness

- ❖ Multiple **Product_ID** values are duplicated.

Accuracy

- ❖ There is an issue where the status says 'Out of Stock' but it has more than 1 quantity.
- ❖ In the **Product_Name** column, almost all of the values have hidden spaces in them
- ❖ Status are mislabeled based on the product's quantities.

Validity

- ❖ The dates in **Last_Restocked** are not in the correct format.
- ❖ The following columns have the wrong data type: **Quantity**, **Price**, and **Last_Restocked**.

Completeness

- ❖ No nulls, blanks, and whitespaces have been found.

FIXES

- ❖ Removed values such as 'NaN' from **Quantity**, **Price**, and **Last_Restocked**.
- ❖ Replaced 'Two Hundred' with '200' in **Price**.
- ❖ Since **Product_ID** is not unique, **Unique_ID** has been created.
- ❖ Update **Quantity**'s data type from text to int.
- ❖ Update **Price**'s data type from double to decimal(10,2).
- ❖ Update **Last_Restocked**'s data type from text to date.
- ❖ Change the date format in **Last_Restocked**.
- ❖ Add data validation where if quantity is 0 or NULL, the status will be 'Out of Stock'
- ❖ Add data validation where if quantity is less than 100, the status will be 'Low Stock'
- ❖ Add data validation where if quantity is more than or equal to 100, the status will be 'In Stock'
